

ACCUCRAFT POWER UNIT COMPETITION

In light of buoyant sales of our power units, we are organising an annual competition to find the best locomotive built up using the 'Edrig' or 'Ragleth' 0-4-0 chassis or the 'Lawley' 0-6-0 power unit. Entries can be to any scale running on 32mm or 45mm gauge track, and we will feature these on a dedicated page of our website. Tag Gorton, editor of Garden rail magazine, will judge the entrants and the winners will be notified in March so that the top three can be displayed at the 16mm Association show in April where the prizes will be awarded. First prize will be an Accucraft power unit and the runners up will be presented with items of rolling stock from the Accucraft range. Full terms and details of how to enter can be seen below.

COMPETITION TERMS AND CONDITIONS

The entry must be based on the Edrig or Ragleth 0-4-0 or Lawley 0-6-0 power unit.

It must be able to run on 32mm or 45mm gauge track.

It may be to any scale.

The builder must be prepared to attend the 16mm Association show in April 2013 with the model and allow permission for the entry to be featured in appropriate publications if successful.

Entries can be submitted by email to info@accucraft.uk.com including as full a specification as possible as well as notes about the prototype (if any!). Four photographs should be attached (we suggest, side, front, top and back) with images that do not exceed 2500 x 2000 pixels in size.

Closing date 31st December 2012.

Good luck!
